PULLCAST

JEWELRY HARDWARE

Dôme Project Interiors, while looking for the best and most unique products on the market, has discovered PullCast Jewelry Hardware, a Portuguese brand of decorative and architectural hardware that take as primary inspirations the simplest elements of nature to the most extravagant details of cosmopolitan life. This project was carried out in a prestigious apartment located on a very exclusive island in Miami. The project covers 800-square-meters and also the property has a 200-square-meter terrace overlooking Miami Beach.

The Dôme Project Interiors team worked on an Art Deco theme, ingeniously exploiting refined finishes and details. The aim was to create a gracious and elegant interior through the use of noble and natural materials, such as mother-of-pearl and shagreen, subtly creating a perfect balance in textures and visually emphasizing the elegance of both the architectural features and the luxurious furniture pieces.

The jewel of Dôme's project was the 200-square-meter lounge with a spectacular panoramic view of the ocean and South Beach. The sofas and armchairs in this beautiful living area were designed by Dôme and custom made in high-end quality in order to match this imposing and polished ambiance.
